

INTELLIGENCE REPORT: TRINETRA-IR-2026-001

CLASSIFICATION: RESTRICTED // OPERATION TRISHUL

SUBJECT: Forward Reconnaissance & Observation Briefing

1. EXECUTIVE SUMMARY

Forward surveillance units deployed across northern borders initiated tactical observation.

Observation Activity designated as Event A was registered during the 0400 hours patrol window.

Preliminary telemetry indicates ground movement and infrastructure verification.

2. MISSION OBJECTIVES

- Establish optical observation of Sector Alpha perimeter.
- Correlate known industrial compounds and supply routes.
- Verify reported coordinates against satellite and drone map feeds.

3. FIELD OBSERVATIONS & TACTICAL CO-REFERENCING

An observation was reported near Sector Alpha.

Activity was registered along the northern access corridor. The reconnaissance unit captured the attached high-resolution tactical grid map (Figure 1.1) displaying Sector Alpha, the primary access coordinates, and nearby facilities including Factory Bravo.

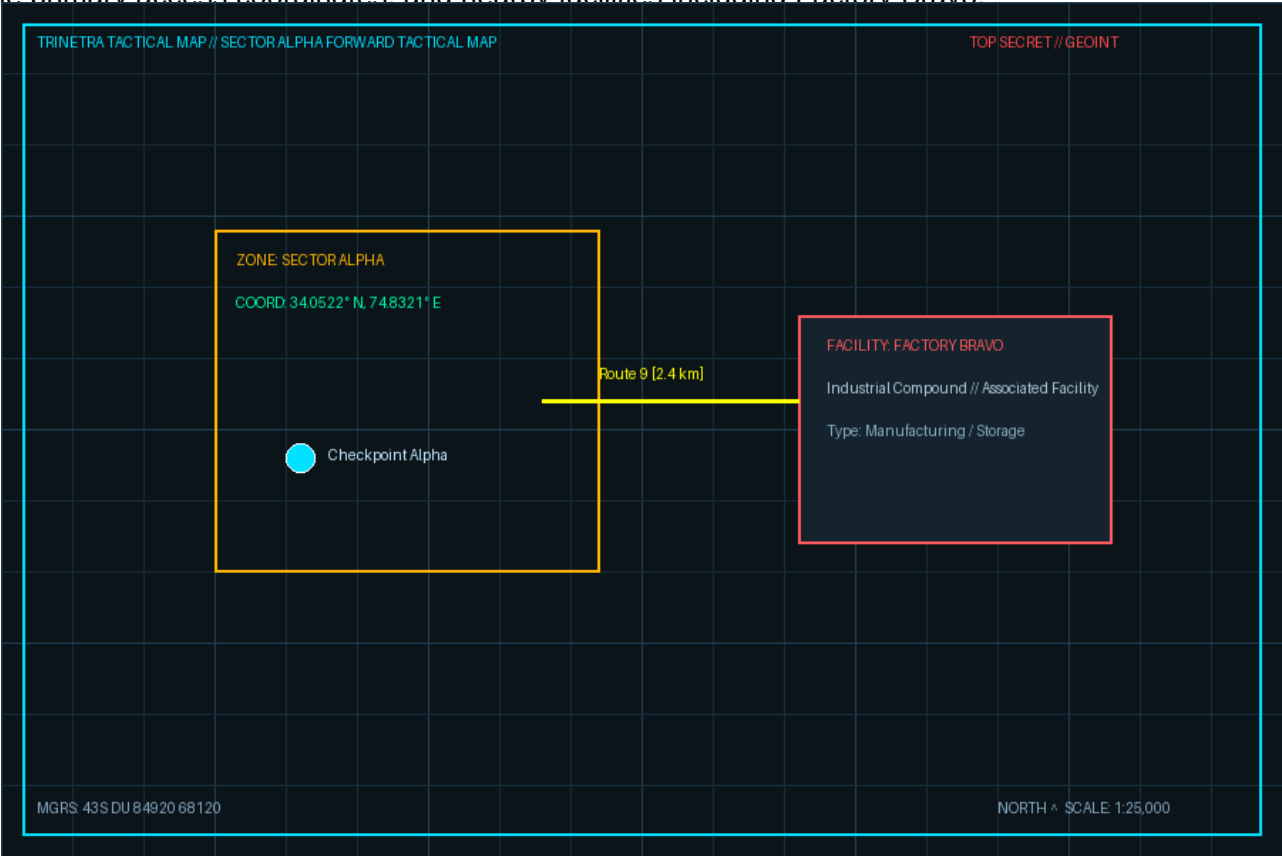

Figure 1.1: Tactical Reconnaissance Map · Sector Alpha and Adjacent Infrastructure.
Note: Coordinate 34.0522° N, 74.8321° E confirmed by forward survey.
Nearby facility Factory Bravo located 2.4 km along Route 9.
